

2025 ELGI AGM COPENHAGEN AGM PRESENTATIONS A GUIDE FOR SPEAKERS

The following is a guideline on our requirements and to assist in preparing your presentation

Technical presentations must comply with the following requirements:

We will only accept papers if sent to the ELGI in Word Document Format by 1st March 2025 and if the Power Point Presentations are sent to the ELGI by 1st April 2025.

1. Advise the ELGI by **20th October 2024** of your desire to present a paper.
2. Please forward your topic & abstract to the ELGI, in Word document (.docx) format.
3. You will receive notification of acceptance by **30th November**
4. Depending on the number of presentations, the conference programme allocates a total of 30 minutes for each presentation including the Q&A session. Presenters are advised to limit their presentation to 25 minutes to ensure sufficient time for audience questions.
5. Power Point presentations should be in wide screen format. The ELGI will provide a template for presentations which should be used; individual corporate logos can also be included but should not materially distract from the ELGI Logo. Do advise the ELGI of any special audio-visual equipment required
6. Once a paper has been accepted by the ELGI Review Committee, the rights to publish in Eurogrease and use of the material in any way consistent with the objectives of the ELGI are considered granted unless specific written instructions to the contrary are received by registered delivery.

If a paper will be published elsewhere, please inform ELGI if/when publishing in Eurogrease is feasible.
7. Since the ELGI only has abstracts to consider papers for presentation, we reserve the right to reject any paper (manuscript) if deemed too commercial.
8. The use of specific brand names and commercial aspects should be avoided. Any reference to products should be in chemical, scientific or generic terms.

9. The ELGI reserves the right to refuse publication in Eurogrease.
10. When you inform the ELGI of your intention to present a paper, please forward a photograph & CV summary (5 lines *keep this brief*) of the author(s) and an abstract of around 200 words of your paper. This information will be published in the Eurogrease and on the Web prior to the AGM.
11. Your Word Document Manuscript should reach the ELGI by **1st March 2025** latest
12. Your Power Point Presentation should reach the ELGI by **1st April 2025** latest
13. If a full copy of your manuscript or power point presentation is not received by these given deadlines, the ELGI reserves the right to refuse your presentation.
14. All word document manuscripts will be uploaded in PDF on the ELGI Conference Portal and will be available to registered attendees a week prior to the conference.
15. Photos are welcome and will be considered for use on the cover of the Eurogrease, dependent on the subject matter.
16. Each session has a designated Session Chair. It is strongly advised that you familiarise yourself with the room layout, projection equipment etc.
17. Following the ELGI AGM, all manuscripts (PDF) and presentations (PDF) together with AGM proceedings and photographs will be available to registered AGM attendees only.
18. The conference fee for 1 lecturer per paper is waived.
